- **Button:** "View Buildathon" (→ /buildathon)

3. Buildathon Page (`/buildathon`)

SEO

Field	Value
Title	MCP to the Moon — Fronthyre × NitroStack | Fronthyre
Description	A developer buildathon focused on MCP and AI-assisted development. October 10-12, 2026. Register on NitroStack.

Hero

- **Badges:** "Buildathon" | "Registration Opening Soon"
- **Brand line:** "Fronthyre × NitroStack"
- **Title:** "MCP to the Moon"
- **Description:** "A developer buildathon focused on MCP and AI-assisted development."
- **Date:** "October 10–12, 2026" | **Duration:** "3 Days" | **Mode:** "Online"
- **Buttons:** "Register on NitroStack" (→ https://nitrostack.dev) | "Join Fronthyre Early Access" (→ /early-access)
- **Note:** "Registration is handled externally by NitroStack."

About the Buildathon

Eyebrow: "About" | **Title:** "About the Buildathon"

"MCP to the Moon is a developer buildathon focused on exploring the Model Context Protocol (MCP) and AI-assisted development. The event provides an opportunity for participants to learn, experiment, build projects, and share what they create."

"Fronthyre is sharing information about the event with relevant developer communities and directing interested participants to NitroStack for official event information and registration. Official event information, eligibility, participation format, judging, prizes, mentors, submission requirements, and other event details are determined by NitroStack."

Community Outreach

Title: "Community promotion & developer outreach"

"Fronthyre is sharing information about MCP to the Moon with relevant developer communities and directing interested participants to NitroStack for official event information and registration."

Why Participate

Card	Title	Description
1	Build with MCP & AI	Explore building with Model Context Protocol and AI-assisted development alongside fellow builders.
2	Modern Development	Explore MCP, AI-assisted development, and modern application-building workflows.

3	Developer Community	Connect with a community of developers building with modern tooling and AI.
4	Build Something Real	Create working applications, tools, and projects over three focused days of building.
5	Learning & Resources	Explore MCP resources and learning material throughout the event.
6	Prizes & Opportunities	Official event opportunities and participation details will be announced by NitroStack.

Who Should Join

Description: "The event is intended for developers and builders interested in MCP, AI-assisted development, and modern application development."

> "Official eligibility is determined by NitroStack."

Tags: Developers | Software Engineers | Frontend & UI Professionals | Product Builders | AI Builders | Technology Enthusiasts

What You Can Build

Description: "These are examples rather than official competition tracks unless confirmed by NitroStack."

Card	Title	Description
1	MCP-Powered Tools	Build developer tools and integrations leveraging the Model Context Protocol.
2	AI-Assisted Applications	Create applications that integrate AI capabilities into modern development workflows.
3	Developer Experiences	Build tools and experiences that improve developer productivity with MCP and AI.
4	Open Source Projects	Contribute to or start open source projects during the buildathon.

How It Works

Step	Title	Description
01	Register	Register through the official NitroStack platform.
02	Learn	Explore MCP resources and learning material.
03	Choose an Idea	Choose a problem or idea to build.
04	Build	Build using MCP, AI-assisted development, and supported technologies.
05	Submit	Submit according to official event guidelines.

Event Timeline

Description: "Three-day buildathon schedule. Detailed activities and timings will be announced by NitroStack."

Day	Date	Title	Description

Day 1	October 10, 2026	Buildathon Begins	Buildathon begins. Official opening details and schedule will be announced by NitroStack.
Day 2	October 11, 2026	Continued Building	Continued building and event activities. Official schedule and participation details will be announced by NitroStack.
Day 3	October 12, 2026	Submissions & Closing	Project submissions and closing activities according to official NitroStack event guidelines.

Demo controls (prototype only): "Fill demo data" | "Show error state" | "Reset"

5. About Page (`/about`)

SEO

Field	Value
Title	About — Fronthyre
Description	Fronthyre is building a frontend-focused talent network for frontend professionals in India. Learn about what we're building and why.

Header

- **Badge:** "About"
- **Title:** "Building a talent network for frontend & UI professionals."
- **Description:** "Fronthyre is building a frontend-focused talent network for professionals across modern web, mobile, UI, and frontend technology stacks — with a focus on connecting talent with relevant career opportunities."

Content Sections

1. What is Fronthyre?

"Fronthyre is a frontend-focused talent network being built for professionals across the frontend and UI ecosystem. The platform is designed to help frontend talent discover relevant career opportunities and help companies connect with professionals with frontend-focused skills. Fronthyre is currently in pre-launch."

2. Why frontend?

"Frontend is more than a job title — it is a broad engineering and product discipline spanning web experiences, mobile interfaces, UI engineering, design systems, accessibility, performance, and many evolving technologies. Fronthyre is being built specifically around this ecosystem rather than treating frontend as just another category within a broad job marketplace."

3. Who is it for?

"Fronthyre is for frontend developers, UI engineers, mobile developers, frontend architects, and other professionals working across modern web, mobile, UI, frameworks, libraries, tools, and frontend technology stacks."

> "Technology coverage is intentionally broad and will evolve with the frontend ecosystem."

4. For companies — Built with frontend hiring in mind

"Fronthyre is being designed to help companies discover frontend and UI professionals across a broad range of modern technology stacks and skill areas. Employer-facing capabilities are currently being developed as part of the platform's pre-launch roadmap."

5. Where are we today?

"Fronthyre is currently in pre-launch. The Early Access experience is being developed as part of the platform's initial launch. The full talent network and opportunity-discovery experience are still being built."

6. What's next?

"Fronthyre is working toward launching a dedicated frontend talent network where professionals can build their presence, discover relevant opportunities, and stay connected with the evolving frontend ecosystem. Early Access is intended to provide updates as Fronthyre develops and launches new capabilities."

> "Fronthyre does not guarantee employment, interviews, job offers, or placement."

CTA

- **Title:** "Join the network"
- **Description:** "Be among the first frontend professionals to join Fronthyre."
- **Button:** "Join Early Access" (→ /early-access)
